By michael raynor 19 years ago I was a dyslexic actor who garnered great theater reviews and was rockin' scenes in Wynn Handman's class, YET I couldn't get a single callback for television or film..not even one callback! I felt cursed. Luckily my then-agent, a brash Jersey broad, told me to study auditioning with a guy named Tim Phillips, and to let her know when I felt ready to audition, because she would not be submitting me for anything until that time; what's more, she agreed not to drop me as a client till that time. Well, 6 months later I told her I felt ready to audition and compete for jobs in television and film...3 months later Law Order combined 3 small parts into a meaty guest star role (along side Sam Rockwell), then Mike Nichols cast me in 3 scenes opposite Jack Nicholson, and I landed a lead in indie-feature, Federal Hill- all within 60 days! In short, my life completely changed, in fact, utilizing Tim's techniques, all I needed was 10 minutes to prepare. Even more, I found then, and I find now- that once you are on a set doing the actual part, all you ever need is the work that Tim teaches. To satisfy all the details (of his technique) gives you the performance. But again, acting is a sport, so it's best to stay sharp by sticking with Tim's work! 1 of 1 people found the following review helpful. Acting and Voice Over class that's turn a scar into a star. No kidding. By Stuckshutter This is an acting class in a book. If you shoot video like I do, I got it on the recommendation of my buddy who took Tim's class. I went away understanding how to read a script and how to help talent deliver a great performance when I'm the chief cook and bottle washer on a shoot. Really is fantastic, buy it, you will not regret it because it'll help you with not just voice over or acting but also make you a much better speaker if you do that sort of thing to generate clients. 1 of 1 people found the following review helpful. Awesome! By Jasmine I purchased this book last year and realized that Tim was coming to do a two day intensive after finding out on social media. I have to tell you I was blown a way at how specific your choices have to be that I'll never audition or look at a script the same way ever again. After reading this book all I can say is that I'm going to start reading it again tomorrow. The information in this book became so vital to me that my highlighter stopped working. By three highlighters and mark this book up. Thank you Tim!

You've come out a big audition lined up for a role in a film or on a television
